## DISCLOSURE

It is the policy of the New Orleans Academy of Ophthalmology to ensure balance, independence, objectivity, and scientific rigor in all its educational programs. All faculty participating as speakers in this program are required to disclose any relevant financial relationship(s) they have with a commercial interest that benefits the individual in any financial amount that has occurred within the past 24 months; and the opportunity to affect the content of CME about the products or services of the commercial interests. The New Orleans Academy of Ophthalmology will ensure that any conflicts of interest are resolved before the activity occurs.

Postgraduate Institute for Medicine (PIM) requires faculty, planners, and others in control of educational content to disclose all their financial relationships with ineligible companies. All identified conflicts of interest (COI) are thoroughly mitigated according to PIM policy. PIM is committed to providing its learners with high-quality accredited continuing education activities and related materials that promote improvements or quality in healthcare and not a specific proprietary business interest of an ineligible company.

The faculty reported the following relevant financial relationships with ineligible entities related to the educational content of this CE activity. These relationships have been mitigated:

The PIM planners have nothing to disclose.

## JOINT ACCREDITATION STATEMENT

In support of improving patient care, this activity has been planned and implemented by the Postgraduate Institute for Medicine and the New Orleans Academy of Ophthalmology. Postgraduate Institute for Medicine is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

## DESIGNATION - Physician Continuing Medical Education - AMA (MDs, DOs)

The Postgraduate Institute for Medicine designates this live activity for a maximum of 20 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

## PURPOSE

This activity is intended for the comprehensive ophthalmologist, as well as the Cataract, Glaucoma and Pediatric Ophthalmology specialist on the latest in diagnosis, medical management, preoperative evaluation, surgical techniques, clinical outcomes and postoperative complications management in these fields.

## EDUCATIONAL OBJECTIVES

Upon completion of this program, participants should be able to:

- Apply current evidence-based guidelines to establish individualized target intraocular pressure (IOP) based on disease severity and risk of progression.
- Interpret OCT and visual field data using longitudinal progression analysis to identify clinically meaningful change.
- Describe the role of selective laser trabeculoplasty (SLT), combination therapy, and surgical options across stages of glaucoma.
- Identify key sources of refractive error in cataract planning (biometry, astigmatism, lens constants, OSD influence) and describe strategies to reduce refractive surprise.
- Identify key sources of refractive error in cataract planning (biometry, astigmatism, lens constants, OSD influence) and describe strategies to reduce refractive surprise.
- Implement a standardized pre-operative evaluation protocol including ocular surface optimization prior to biometry and surgical planning.
- Identify age-appropriate pediatric vision screening methods and apply recommended referral criteria. American Academy of Ophthalmology
- Recognize amblyopia risk factors and interpret instrument-based screening outputs to guide referral and follow-up. ScienceDirect
- Implement a standardized workflow for pediatric screening, documentation, and referral timing to reduce delayed diagnosis. American Academy of Ophthalmology

Dear Attendee,

In 2026, we proudly celebrate 75 years of excellence in ophthalmic education. This milestone is a testament to the unwavering dedication of the New Orleans Academy of Ophthalmology (NOAO)—and to you, our valued members and supporters.

For decades, NOAO has been more than just a source of continuing medical education. It has been a pillar of innovation, a trusted resource, and a community where ophthalmologists come together to learn, grow, and advance the future of eye care.

### Now, We Need Your Help to Secure the Next 75 Years

While NOAO has remained steadfast in its mission, the challenges of sustaining high-quality, independent education continue to grow. Rising costs, evolving technology, and the need for innovative learning formats threaten our ability to provide world-class education at an affordable price.

To preserve and strengthen our legacy, we invite you to join the Fleur de Lis Society—a dedicated fund ensuring that NOAO continues to shape the future of ophthalmology for generations to come.

### Your Contribution Will Make a Lasting Impact

By joining the Fleur de Lis Society, you are not simply making a donation—you are investing in the future of ophthalmic education. Your gift will help sustain:

- Cutting-edge symposiums featuring world-renowned experts
- Affordable access to top-tier educational programs
- A learning environment free from corporate influence
- The next generation of ophthalmologists who will carry our field forward

We invite you to consider a gift at one of the following levels:

Bronze: \$5,000 - \$9,999

Silver: \$10,000 - \$24,999

Gold: \$25,000 - \$99,999

Platinum: \$100,000 or greater

Your contribution can be made as a one-time donation, a pledge payable over five years, a bequest, or a gift in memoriam of a past member.

### Honor Our Legacy—And Become a Part of It

Your generosity will become a permanent endowment of NOAO, ensuring that future generations of ophthalmologists have access to the same world-class education that has shaped your career.

This is your chance to leave a legacy—to be part of something bigger than yourself. Without your support, the future of independent ophthalmic education is uncertain.

**Make your mark. Protect our legacy. Invest in the future of ophthalmology.**

With deepest gratitude,

D. Anthony Mazzulla

President

New Orleans Academy of Ophthalmology
